

Carbon Reduction Plan

Company Name: Twenty Seven Consulting

Date Published: 26 June 2025

1. Commitment to Achieving Net Zero

Twenty Seven Consulting is committed to achieving Net Zero carbon emissions by 2050. As a small, remote-working consultancy with minimal environmental impact, we are dedicated to leading by example through sustainable practices, responsible travel, and continual review of our operations.

2. Baseline Emissions Footprint

- **Baseline Year:** 2024
- **Scope 1 (Direct Emissions):** 0 tCO₂e (*fully electric vehicle*)
- **Scope 2 (Indirect Energy Emissions):** 0.2 tCO₂e (*home office electricity use*)
- **Scope 3 (Other Indirect Emissions):** 1.4 tCO₂e
 - Includes: Charging the electric vehicle (where not sourced from renewable supply), digital tools, limited business travel (rail), and IT lifecycle emissions.
- **Total Baseline Emissions:** 1.6 tCO₂e

Note: Scope 1 remains zero as our company vehicle is fully electric and charged via home and public charging points, with a growing emphasis on renewable energy.

3. Current Emissions Reporting

- **Reporting Year:** 2025
 - **Scope 1:** 0 tCO₂e
 - **Scope 2:** 0.15 tCO₂e (*reduced through renewable home energy use*)
 - **Scope 3:** 1.2 tCO₂e
 - Includes EV charging, cloud-based services, occasional business travel.
 - **Total Emissions:** 1.35 tCO₂e
-

4. Carbon Reduction Targets

- **By 2028:** 30% reduction in Scope 2 and 3 emissions (target: 1.1 tCO₂e)
- **By 2035:** 60% reduction in Scope 2 and 3 emissions (target: 0.6 tCO₂e)
- **Net Zero by:** 2050

Annual reviews will be conducted to assess progress and introduce new reduction measures.

5. Carbon Reduction Initiatives

Twenty Seven Consulting has implemented or committed to the following:

- **Electric Vehicle Use:** Company transport is provided via a fully electric vehicle, reducing reliance on fossil fuels.
- **Home Office Efficiency:** Using 100% renewable energy tariffs in home working environments.
- **Sustainable Travel:** Prioritising virtual meetings. Any necessary travel is planned using public transport or the EV.
- **Paperless Operations:** Using digital tools exclusively to reduce paper waste and physical storage.
- **Low-Carbon Procurement:** Prioritising carbon-neutral or refurbished tech and using cloud providers with strong sustainability credentials.
- **Carbon Offsetting:** Reviewing options to offset any unavoidable emissions on an annual basis.
